The festival has seven zones mirroring Citizen Network’s seven keys to citizenship – Love, Life, Home, Freedom, Help, Purpose, and Money – the very basic things we need to play our part in local community and within society more generally.

Three days of music, drama, connections, storytelling, art, inspiration, keynotes, idea labs, comedy and fun.

Entry to the festival is FREE of charge.

Please come along to this family-friendly event by registering for your place at:

Make sure you get along to support the Clutha Kids!
The 7 Keys model was developed by Simon Duffy and Wendy Perez to set out the key elements of citizenship that the Festival is based upon:

**FREEDOM**: being a citizen means being in control of your own life – being able to make decisions, make mistakes, make your own way.

**PURPOSE**: being a citizen means having a life of meaning – your own meaning.

**MONEY**: money is important, but maybe not for the reason we all think. Money gives us the means to be independent, to set our own course and to achieve our own goals.

**HOME**: we all need a place we can call our home, not just a shelter, but a place where we can have privacy, where we can be with those we love, where we belong.

**HELP**: the challenge today is to get help without having to give up your citizenship.

**LIFE**: and it is by giving something back to our community that we can really help others to understand our worth.

**LOVE**: the beginning and the end of citizenship is found in love. Love is also the best guarantee of bringing into existence a new generation of citizens to help build a better world.

So the challenge is to go out and explore the different venues. You are on the lookout for the 7 Keys to Citizenship. At each venue talk to our volunteers and collect all 7 stamps.

At the end of the day bring your completed page back to Vertigo for a prize give away. Only those present at Vertigo will be entered into the draw. Collect the stamps:

Citizen Network - for a world where EVERYONE matters

We are all wonderfully different and we're all absolutely equal. But so often we become divided and fearful. We build walls, instead of bridges. If you are too different you can be pushed to the margins: excluded, institutionalised or worse.

Progress is possible. We’ve seen people challenge and overcome discrimination. We’ve seen people embrace difference and build inclusive communities. We’ve seen people break free and exercise their citizenship. We can do so much better.

Change begins with ourselves. To create a better world we must think and act differently. Each one of us can help bring about the world we want to see – a world where our diversity is cherished and our equality is respected. Citizen Network was formed in 2016 to help make this process of global transformation real. We are all citizens, we are all equal and we all have a contribution to make. But this contribution can only be made through community – by working with others.

Citizen Network is a cooperative. It brings people together, from all around the world, to support each other to create a world where everyone matters. We cannot wait for permission to change. We must welcome others into community and change our world together – today.

We Are One: CitizenFEST is a volunteer led event. Times may change at short notice – please check social media for updates. Children must be supervised by an adult. All efforts have been made to make venues accessible.

Citizenfest is a network of charities and organisations who have come together to produce this festival – We Are One.
